TFWC Capitol District President's Project:

The Leukemia & Lymphoma Society (LLS) <http://www.lls.org/>

Cure leukemia, lymphoma, Hodgkin's disease and myeloma, improve the quality of life of patients and their families.

LLS exists to find cures and ensure access to treatments for blood cancer patients. We are the voice for all blood cancer patients and we work to ensure access to treatments for all blood cancer patients. As there are no means of preventing or early screening for most blood cancers, the LLS research agenda is focused on finding cures. LLS drives research in areas of unmet medical need, and helps bridge the gap between academic discovery and drug development. LLS identifies and funds the most promising blood cancer research projects and forges partnerships with academic institutions, biotechnology and pharmaceutical companies to accelerate the development of new therapies.

Capitol District Presidents Theme/Motto:

“Capitolizing on the past, adapting to the future!”
